

Job Title: Senior Façade Consultant

Location: London

Employment Type: Full-Time

Salary: To be negotiated

The Opportunity

We are seeking an experienced Senior Façade Consultant to lead the coordination, technical assessments, and management of Façade projects during RIBA Stage 5. The ideal candidate will have a strong background in Façade design, engineering, and construction processes.

This role involves overseeing site and factory visits, managing stakeholders, and producing detailed technical reports and site visit notes. The consultant will work closely with architects, engineers, contractors, and other stakeholders to ensure Façade systems are efficiently designed, constructed, and maintained to the highest standards.

Why choose Henriksen Studio?

- We pride ourselves on our people and our reputation. Our team is at the heart of everything we do, and we are committed to creating an environment where everyone can thrive.
- Innovation is in our DNA. We are future-focused and constantly challenge the status quo. We encourage fresh ideas and bold thinking, providing a platform for you to push boundaries and drive change.
- Inclusion and belonging are core to our ethos. We are dedicated to upholding a diverse and inclusive workplace where everyone feels valued and respected. Your unique perspectives and experiences will be celebrated and integrated into our collective success.
- We're continuously growing and evolving, offering outstanding career opportunities. Our dynamic environment provides the perfect setting for you to advance your career and explore new possibilities. We welcome your ideas and are always open to trying new things.

We Offer 25 days annual leave + bank holidays, Holiday buy-back scheme (up to 5 days), Healthcare cover (including EAP), Life insurance, Season ticket loans, Cycle to work scheme.

What you can expect to do here:

Key Responsibilities:

Project Coordination & Management:

- Lead the coordination of Façade engineering projects in the last stages of the design, for construction and maintenance, ensuring timely delivery of milestones and objectives.
- Collaborate with architects, structural engineers, contractors, and other stakeholders to integrate Façade systems into overall project designs.
- Ensure compliance with building codes, safety standards, and quality requirements.

Site and Factory Visits:

- Plan, manage, and attend regular site and factory visits to assess Façade system installations and manufacturing processes.
- Ensure that Façade components meet quality standards and project specifications during factory production and on-site assembly.
- Identify and resolve any issues related to Façade system performance or installation.

Technical Reporting:

- Produce comprehensive technical reports, including Façade performance assessments, inspection notes, and compliance with industry standards.
- Document site visit observations and prepare detailed site visit notes to communicate issues, progress, and recommendations to project teams.
- Prepare and present technical proposals, specifications, and recommendations to clients and stakeholders.

Quality Control & Assurance:

- Review Façade designs, drawings, and specifications to ensure compliance with project requirements and best practices.
- Oversee quality control measures on site and at manufacturing facilities, ensuring that Façade components are fabricated and installed correctly.
- Monitor the performance of installed Façade systems and recommend maintenance strategies as necessary.

What you'll bring to Henriksen Studio

- Bachelor's degree in Civil Engineering, Architecture, Structural Engineering, or related field (Master's degree preferred).
- Minimum of 8-10 years of experience in Façade engineering, with extensive experience in project coordination, site inspections, and technical reporting.
- Proficiency in Façade systems, materials, and construction methods (e.g., curtain walls, cladding systems, glazing, etc.).
- Strong knowledge of local building codes, safety regulations, and industry standards.

- Proven track record of managing complex Façade projects from design to completion.
- Excellent technical writing skills and the ability to produce clear, concise reports and documentation.
- Strong leadership, communication, and problem-solving skills.
- Ability to travel frequently to project sites and factories as required.

Preferred Skills:

- Proficiency in Façade design software (AutoCAD, Revit, Rhino, etc.).
- Experience with Building Information Modelling (BIM) and digital design tools.
- Knowledge of sustainable Façade design and energy-efficient systems.

About Us

Henriksen Studio is a consultancy specialising in façade engineering and Passivhaus design. We integrate cutting-edge façade technologies with sustainable design principles to achieve unparalleled energy efficiency in high-rise buildings.

Our Philosophy

Creating beautiful, buildings meeting the demands of a sustainable future. Our clear focus is on achieving net-zero carbon targets through innovative design and engineering.

Equality, Diversity, and Inclusion

We put equality, diversity, and inclusion at the heart of our business, seeking to promote fair employment procedures and practices to ensure equal opportunities for all. We encourage individual expression in our workplace and are committed to creating an inclusive environment where everyone feels they can contribute.

Accessibility

We want you to perform your best at every stage in the recruitment process. If you are disabled or need any support to enable you to apply or attend an interview, please contact us at jobs@henriksenstudio.com and we will talk to you about how we can support you.
